OUR STORY

Valemount was born from a simple vision and combined with an ambition to transform an industry. From taking over a small bird seed business in 2012 based in Durban, Valemount is now the largest bird seed manufacturer in South Africa with the ability to service any customer anywhere in the country.

With no experience in seed and grain, Rob and Damien Westerman faced overwhelming odds. These challenges forced a different approach to the bird seed market and ultimately changed the industry for the good.

Over the past few years Valemount has expanded to 4 regional distribution and manufacturing centres across South Africa providing employment to over 264 people and empowering 17 new business owners.

Valemount has also increased its basket of goods, supplying leading global brands to the South African market. Valemount continues to strive to bring South Africa the latest and best the world has to offer. In combination with our global partners, M-PETS, Beeztees and Pet Rebels, and locally produced brands, Westerman's and Animal Zone, Valemount now offers a premium bouquet of brands that elevate the lifestyle of pet ownership in all its forms.

OUR VISION

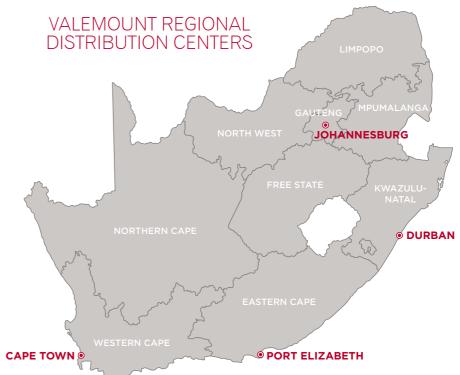

To be the leading pet company in Southern Africa.

OUR CORE BELIEFS

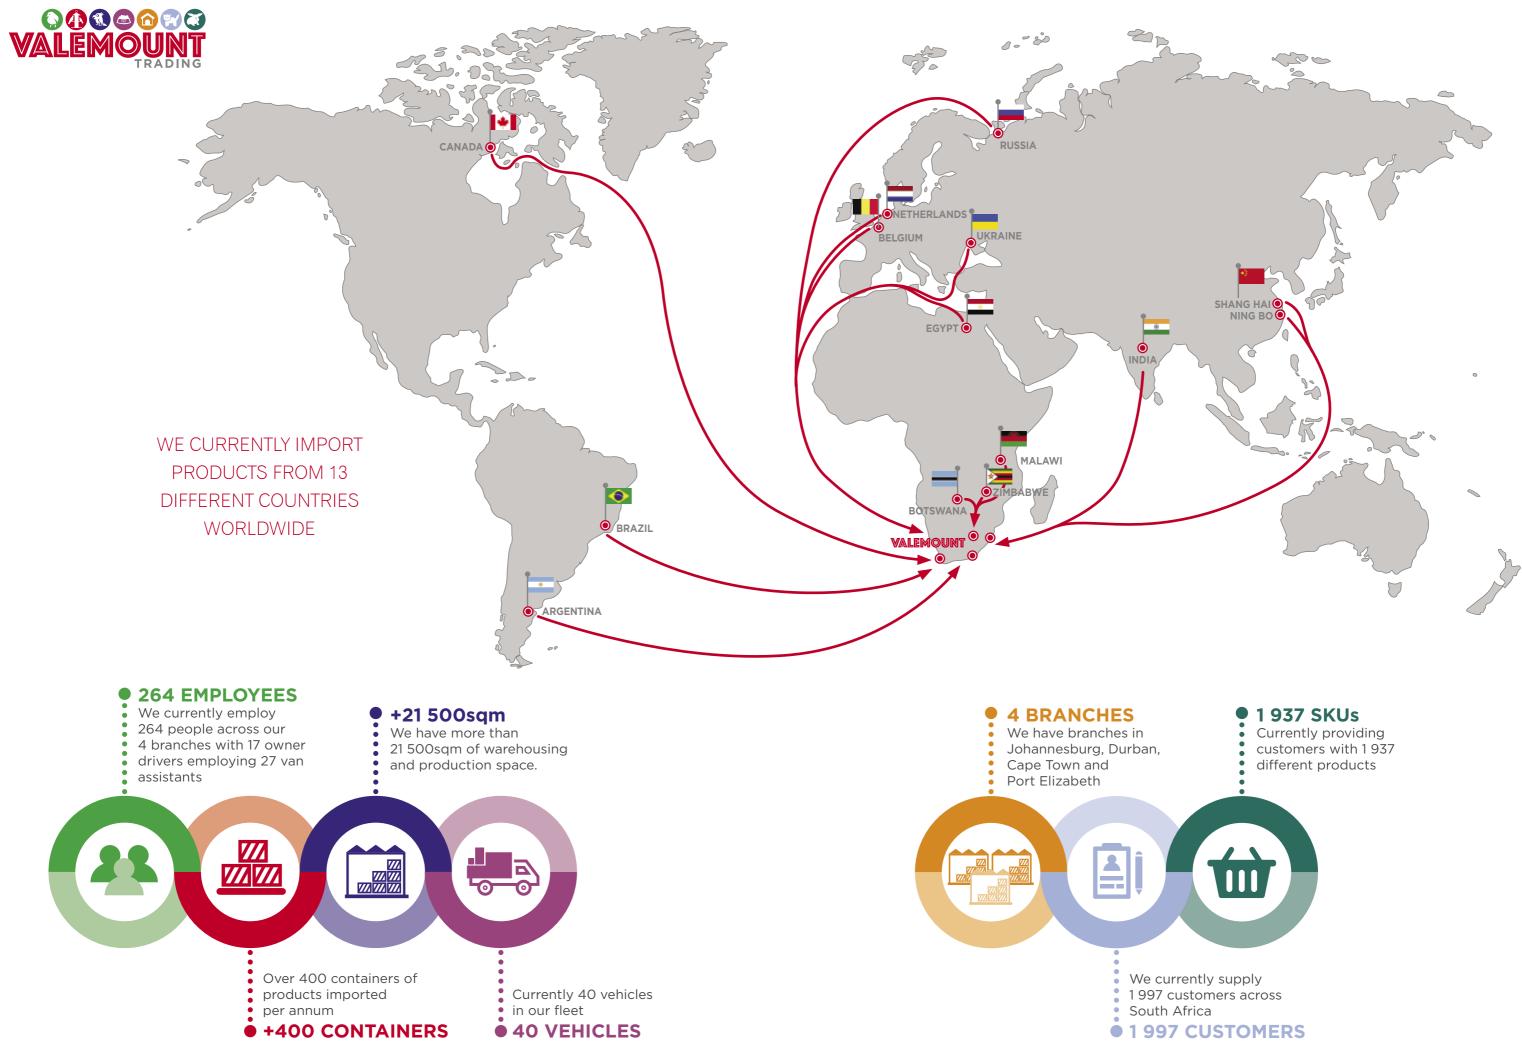

Innovation, integrity, quality, agility, humility, excellence & passion.

OUR MISSION

To create value for our customers through the strategic focus on increasing our offering, capability and capacity; thereby growing and supporting our customers. Through innovation and adaptability, we strive to continually learn and better ourselves in order to be the best we can be.

Introducing our Gold Standard Premium Pigeon Food

New Westerman's Gold Standard (WGS) pigeon food uses recipes formulated in Belgium.

We use up to 30 seeds and grain in our mixes at any one time. Seeds and grains are professionally cleaned (multiple times) and hand selected.

Our seeds and grains are sourced from reputable worldwide suppliers keeping the quality and consistency the same all year round. WGS seeds and grains are blended and mixed in one facility where Lactic acid is added to kill undesirable bacteria. The mixes pass through a final stage of sieving to remove any dust or husk that might have remained.

You can count on Westerman's Gold Standard to cater to all your birds, at whatever stage, whether young, breeding, moulting or competing.

GOLD STANDARD PREMIUM BREEDING

This mixture has proved successful as it contains less maize & more peas which normally esure that pigeons don't leave any grains behind after feeding. Used all year except when other mixes are in play.

Ingredients: Dunn Peas, Green Peas, Lentils, Maple Peas, Mung Beans, Paddy Rice, Wheat, Safflower, Yellow Maize Cribbs, Vetches, White Sorghum, Yellow Peas.
