OUR STORY

Valemount was born from a simple vision and combined with an ambition to transform an industry. From taking over a small bird seed business in 2012 based in Durban, Valemount is now the largest bird seed manufacturer in South Africa with the ability to service any customer anywhere in the country.

With no experience in seed and grain, Rob and Damien Westerman faced overwhelming odds. These challenges forced a different approach to the bird seed market and ultimately changed the industry for the good.

Over the past few years Valemount has expanded to 4 regional distribution and manufacturing centres across South Africa providing employment to over 240 people and empowering 21 new business owners.

Valemount has also increased its basket of goods, supplying leading global brands to the South African market. Valemount continues to strive to bring South Africa the latest and best the world has to offer. In combination with our global partners, M-PETS, Beeztees and Pet Rebels, and locally produced brands, Westerman's and Animal Zone, Valemount now offers a premium bouquet of brands that elevate the lifestyle of pet ownership in all its forms.

OUR VISION
